

# RaceDay System - API Endpoint Plan

This document outlines the API endpoints for the **RaceDay** event management platform. It defines the routes, HTTP methods, authorization requirements, and payload structures for each service.

| HTTP Method | Route              | Description                           | Role Required   | Request Body                                | Expected Response                 |
|-------------|--------------------|---------------------------------------|-----------------|---------------------------------------------|-----------------------------------|
| POST        | /api/auth/register | Register a new user account           | None (Public)   | { "fullName", "email", "password", "role" } | 201 Created / 400 Bad Request     |
| POST        | /api/auth/login    | Authenticate user and issue JWT token | None (Public)   | { "email", "password" }                     | 200 OK (token) / 401 Unauthorized |
| GET         | /api/users/profile | Get logged-in user profile            | Any (Logged in) | None                                        | 200 OK / 401 Unauthorized         |
| PUT         | /api/users/profile | Update profile details                | Any (Logged in) | { "fullName", "email" }                     | 200 OK / 400 Bad Request          |
| GET         | /api/events        | List all upcoming race events         | None (Public)   | None                                        | 200 OK                            |
| GET         | /api/events/{id}   | Get event details                     | None (Public)   | None                                        | 200 OK / 404 Not Found            |

|               |                               |                                         |               |                                                     |                               |
|---------------|-------------------------------|-----------------------------------------|---------------|-----------------------------------------------------|-------------------------------|
|               |                               | with categories                         |               |                                                     |                               |
| <b>POST</b>   | /api/events                   | Create a new race event                 | Organiser     | { "title", "description", "eventDate", "location" } | 201 Created / 403 Forbidden   |
| <b>PUT</b>    | /api/events/{id}              | Update event details                    | Organiser     | { "title", "description", "eventDate", "location" } | 200 OK / 404 Not Found        |
| <b>DELETE</b> | /api/events/{id}              | Delete a race event                     | Organiser     | None                                                | 200 OK / 403 Forbidden        |
| <b>POST</b>   | /api/events/{id}/categories   | Add a distance category to an event     | Organiser     | { "categoryName", "distanceKM", "entryFee" }        | 201 Created / 404 Not Found   |
| <b>GET</b>    | /api/events/{id}/categories   | List categories for an event            | None (Public) | None                                                | 200 OK                        |
| <b>POST</b>   | /api/enrolments               | Enrol in an event category              | Participant   | { "categoryId" }                                    | 201 Created / 409 Conflict    |
| <b>GET</b>    | /api/enrolments/my-enrolments | View my event enrolments                | Participant   | None                                                | 200 OK                        |
| <b>GET</b>    | /api/events/{id}/enrolments   | View enrolled participants for an event | Organiser     | None                                                | 200 OK / 403 Forbidden        |
| <b>POST</b>   | /api/results                  | Capture race finish time and result     | Organiser     | { "enrolmentId", "raceNumber", "finishTime" }       | 201 Created / 400 Bad Request |

|            |                             |                                       |                 |                   |        |
|------------|-----------------------------|---------------------------------------|-----------------|-------------------|--------|
|            |                             |                                       |                 | ,<br>"position" } |        |
| <b>GET</b> | /api/results/my-<br>results | View my<br>performa<br>nce<br>history | Particip<br>ant | None              | 200 OK |
